Electronically timed, professionally run

This is the first time we are inviting other units to come compete against us. We would like to make this a Northern Arizona tradition.

Strategy, teamwork, orienting the map, and reading the terrain ahead of you are the critical skills—NOT compass work.

We will have cameras in the field, a couple randomly picked runners and bikes with cameras, and a DRONE following teams!!

Once you have established contact with us, we will send you very detailed instructions, rules and concept paper.

Email is preferred communication. Phone is available evenings and weekends. Day time phone is least preferred but OK.
