

A topographic map of a study area, likely a mountainous region, showing contour lines, a river network, and various land cover types. The map is overlaid with a grid of blue lines. Ten numbered points (1-10) are marked with pink circles and connected by pink lines, forming a network. A scale bar in the bottom left corner indicates a distance of 200 meters. The map includes various symbols for buildings, roads, and vegetation. The terrain is characterized by brown contour lines and green areas representing vegetation. The river network is shown in blue. The numbered points are distributed across the map, with points 1-5 forming a loop in the lower half and points 6-10 forming a path in the upper half.
